## MEDALS GIVEN BY RED CROSS.

President Taft Awards Honor to Lloyd Griscom.

Executive Hopes for Five Million Endowment.

Would Be Thankful for Mere Two Millions.

(ASSOCIATED PRESS NIGHT REPORT.)

WASHINGTON, Dec. 7.—President Taft was relieved of the American Red Cross today, and presided for a time over the fifth annual meeting of the association.

The President made a brief address, in which he expressed the hope that some one might present the Red Cross with an endowment fund of \$5,000,000, to place its beneficent work on a more permanent basis. Mr. Taft also voted in person a gold medal, presented by the Red Cross to Lloyd G. Griscom, former American Ambassador to Italy, for his work at the Messina earthquake, and silver medals to Miss Katherine B. Davis and Samuel L. Parrish, who assisted in the Italian relief work.

For service in connection with the Turkish-American relief, silver medals were recommended for G. B. Ravndal, Chief-General at Beirut; Dr. F. D. Sheppard, Bay of Aleppo; Dr. E. L. Fryer and Miss Anna Davis.

OFFICERS RE-ELECTED.

Among other officers re-elected were Robert W. de Forest, vice-president; Beekman Winthrop, treasurer; and Henry M. Hoyt, editor of the Red Cross Society.

The hall in which the meeting was held this afternoon was only partly filled when President Taft arose to speak.

"These meetings," he said, "do not seem to grow in numbers, and they do not by any means represent the growth and usefulness of this organization and the demonstration that it has made from time to time each year, of the necessity for its continued life and of the need of a permanent foundation, that shall make it one of the American institutions."

"Last year this society has shown what it could do in its assistance to Italy after the earthquake; to Eastern Turkey after the massacres, and to Mexico after the flood. It seems to me that it is necessary in some way to fill the American ear and to fill the American ear before you can arouse them to contributions, and when you have a disaster such as that in Italy which appealed to all, we are most generous."

FRANKLIN STAMP IDEAS.

"And so it is with respect to the Christmas stamp. That seems to fill the eye of the public and its connection with tuberculosis carries a good revenue to it, but when it comes to the contributions of dollars and cents it comes to the increased membership and when it comes to the establishment of these small contributions of a large endowment fund, the matter seems slow."

"I am sure somebody is going to be born, and I hope he is born already, who will give us a new endowment. In our imaginations we might as well make it as large as we need. I think we ought to have an endowment of about \$5,000,000. We have asked for only \$2,000,000, but if any one has any extra \$3,000,000 he need not be restricted by the limitation put in and can give by check."

"It gives me great pleasure to come here and preside. I am in the president's business at present, and I am free from the burden of a particular presidency I am only too willing to accept."

SMOOTH FOR HOME TRAINING.

WASHINGTON, Dec. 7.—"There is just as much need that a woman should be taught how to cook and sew, make her own hats and darn her husband's socks, if she has a husband, as there is to get one, if she is single, to teach a man how to farm," said Senator Smoot today. He followed this statement with the announcement that he would introduce a bill making appropriations of \$10,000,000 to agricultural colleges, which funds were to be used in the teaching of domestic science. Senator Smoot acknowledged that farm would be made of his measure, and that it would be opposed from many quarters, but he said he felt assured he can have it enacted.

"UNCLE JOE" AS GALLANT.

WASHINGTON, Dec. 7.—Speaker Cannon, in his desire to have some member of his family represented among the visitors in the House galleries at the opening session, nearly got into trouble today. As his daughter, Miss Helen Cannon, was not in town, Mr. Cannon thought of calling up his granddaughter, Miss Virginia Le Sueur, who is a pupil at the Cathedral School for girls.

"Want to come down and see the House convene?" said "Uncle Joe." "You bet," responded Miss Virginia, who is in the vicinity of sweet but shyness, "and I'll bring the bunch."

She did, and she gave the Speaker the full strain of her class to take care of. He did it, but it was something of a strain.

BUREAU GAG LOOSE.

MAY TALK TO CONGRESSMEN.

WASHINGTON, Dec. 7.—Secretary Dickinson today loosened the gag which President Taft put on the mouths of chiefs of bureaus last week, by issuing an interpretation of the President's order that allows the chiefs to talk quite a little to Congressmen, should they drop around the office.

For instance, Secretary Dickinson informed bureau chiefs in his department that they could respond directly to any request from Representatives or Senators for any information, except ordinary and routine matters pertaining exclusively to their respective offices.

Information, however, bearing on questions of policy or on important or unusual matters should not be given out until after consultation with the head of the department.

URGES AERIAL FLEETS.

UNITED STATES LAGS BEHIND.

(ASSOCIATED PRESS NIGHT REPORT.)

WASHINGTON, Dec. 7.—Emphasizing the statement that all first-class powers except the United States are

providing themselves systematically with aerial fleets, Gen. James Allen, chief signal officer of the army, in his annual report, submitted today to the Secretary of War, urges the adoption of a definite plan of aeronautical development in the army.

Germany and France are notably in the lead in providing air fleets, according to Gen. Allen. He also recommended that action be taken looking to a more definite control of wireless telegraphy along the coast. Much confusion has resulted, he says, in the transmission of messages between various aircraft defense and ships at sea.

(ASSOCIATED PRESS NIGHT REPORT.)

WASHINGTON, Dec. 7.—Senator Root of New York, presiding in the Senate today in the absence of Vice-President Sherman, created a sensation among newspaper men.

The effects were even international. Copies of the annual report of the Secretary of the Treasury were in the hands of newspapers throughout the country and Europe, to be held in confidence for publication tomorrow afternoon.

The report itself was still unsigned on the desk of Secretary McVeagh, in the Treasury building.

By some means as yet uncertain, two printed copies of the report found their way to the desk of the President of the Senate, Mr. Root, in the morning.

Instantly keen-eyed reporters on the Senate floor hastened to the winged words of the dispatching routine business in the Senate, and he deftly handed the Treasury report over the desk with the routine announcement customary in such cases.

Commissioners Urge Last Thursday in April as Better Than March 4.

(ASSOCIATED PRESS NIGHT REPORT.)

WASHINGTON, Dec. 7.—A change in the date of inauguration of the President of the United States from March 4 to the last Thursday in April, is strongly urged in the annual report of the Commissioners of the District of Columbia, presented to Congress today.

In directing attention to the necessity for a change in the date, the commissioners point out the danger due to bad weather and call attention to the last inauguration day, when a large number of persons died as a result of exposure to the blizzard.

RED CROSS STAMPS GO FAST.  
(ASSOCIATED PRESS DAY REPORT.)

CHICAGO, Dec. 7.—Although there are still three weeks for the sale of Red Cross Christmas stamps in the tuberculosis war, the total sale to date is far ahead of last year's record for the corresponding period. "And we have only just begun," said Dr. W. H. Wing, superintendent of the Chicago Tuberculosis Institute. "Up to Saturday night, 1,250,000 of the stickers had been placed on sale, and most of them have gone." The total sold last year was 500,000.

CHICAGO'S FIRST HORSE SHOW.  
(ASSOCIATED PRESS DAY REPORT.)

CHICAGO, Dec. 7.—Mrs. Potter Palmer, fresh from her social victories in England, "presided" last evening at the first purely Chicago society horse show ever held in this city. It was the best-dressed horse show crowd that ever sat around an arena in Chicago. And the horses were well worth looking at. They formed probably the most valuable lot of horse flesh ever seen in this city. When the show at the big Union Stockyard amphitheater opened, the first ring of the trumpet brought into the ring 50 heavy draft horses.

WOMAN SWINDLER CAUGHT.  
(ASSOCIATED PRESS DAY REPORT.)

CHICAGO, Dec. 7.—Donna Seymour, an actress, theatrical manager, and alleged confidence woman, indicted by the Mayor grand jury for operating a confidence game, was arrested here yesterday. Welcoming addresses occupied the day's sessions, and tomorrow speakers on religious sociology will be heard.

The position of the comet, he says, is in right ascension, six hours, sixteen minutes, and the declination, north about 34 degrees. It is in the constellation Auriga. Dr. Daniel describes the comet as round and says it is moving almost directly north and is visible through a three-inch telescope.

# TO QUIT BUSINESS

**Here Are Facts and Figures Which No Doubt the Notice We Show You Below Will Prove**

Landlord refuses to even give us until the first of the year when we would have a chance to dispose of our large stock before the holidays, but insists on the surrender of these premises by 12 o'clock the night of Dec. 15. After many vain attempts on our part to induce him to allow us to stay until the first of the year, and not being able to secure his permission at a reasonable rental for these few days, we are forced to throw our entire stock of merchandise, valued at over \$40,000.00, at your mercy. We absolutely guarantee every one and all that this is an absolute legitimate forced out sale, and are willing to donate \$1000.00 to charity if you show us a copy of it is not genuine. This sale positively lasts for only 7 days, and if you value money at all you cannot resist the temptation to purchase this line of merchandise at the prices we are offering you, as we are sustaining a loss of over 50 per cent., but we have no place to go, and positively must turn our merchandise into cash. Below we show you the notice we received from our landlord THE CHICAGO CLOTHING CO., 424-6 S. Main St.

## PRESIDENT'S MESSAGE.

(Continued From Eighth Page.)

movement has been gathering strength, especially among the members of the medical profession, in favor of a concentration of the instruments of the national government which have to do with the promotion of public health. In the nature of things, the medical department of the navy must be kept separate. But there seems to be no reason why all the other bureaus and offices in the general government which have to do with the public health or subjects akin thereto, should not be united in a bureau to be called the "Bureau of Public Health."

Political Contributions—I urgently recommend to Congress that a law be passed requiring that candidates for election of members of the House of Representatives and committees in charge of their candidacy and campaign, file in a proper office of the United States government, a statement of the contributions received and the expenditures incurred in the campaign for such elections and that similar legislation be enacted in respect to all other elections which are constitutionally within the control of Congress.

CONCLUSION.

I have thus, in a message compressed as much as the subjects permit, referred to many of the legislative needs of the country, with the exception already noted. Speaking generally, the country is in a high state of prosperity. There is every reason to believe we are on the eve of a substantial business expansion, and we have just garnered a harvest unexampled in the market value of our agricultural products. The high prices which such products bring mean great prosperity for the farming community, but on the other hand they mean a very considerably increased burden upon those classes in the community whose yearly compensation does not

ness and the general prosperity. Various reasons are given for the high prices. The proportionate increase in the output of gold, which today is the chief medium of exchange and in some respects a measure of value, furnishes a substantial explanation of at least part of the increase in prices. The increase in population and the more extensive mode of living of the people which have not been accompanied by a proportionate increase in acreage production, may furnish a further reason.

It is well to note that the increase in the cost of living is not confined to this country, but prevails the world over, and that those who would charge increases in prices to the existing protective tariff must meet the fact that the rise in prices has taken place almost wholly in those products of the factory and farm in respect to which there has been either no increase in the tariff or in many instances a very considerable reduction.

**SHOT GIRL AT WINDOW.**  
Told in Russian Duma How Prison Sentry Slew Child for Looking Out of Casement.  
[BY DIRECT WIRE TO THE TIMES.]  
ST. PETERSBURG, Dec. 7.—[Exclusive Dispatch.] Exciting debates on the so-called bill to guarantee the inviolability of the person occupy the Duma. The eloquent deputy, M. Gerschinski, made a speech in which he pointed out that the measure was a caricature of similar laws in civilized countries.

"The right of any policeman," he said, "to lay hands on a person suspected by him, and even to shoot him if he resists, shows what a mockery the proposal is. In the prison of Yaroslavl a girl of 7 years was fatally shot by a sentry because she showed herself at a window. In Russia the prisons are full of children accompanying their parents, seized by administrative order. The child men-

YOUR CHANCE FOR ONE MORE WEEK

As competent, skilled doctors, we know we can save human life—and that hundreds are willing to pay the same sum of \$3 a month for the chance to get well. We know that our services are worth the highest fees any doctors can charge—because no doctors are better fitted to treat and cure disease than we are, but to the sick every dollar counts, and we are no robbers. The great number of new cases we take in a month meet our expenses, and the price of \$3 covering cost of treatment and medicines does not work a hardship on anyone.

**WASHINGTON, Dec. 7.**—The government of Honduras has approved an armed invasion, has proclaimed martial law through the republic.

This information reached the State Department today, but no indication was given as to the source from which the invasion was expected.

It is believed, however, that Manuel Bonilla, former President of Honduras, who was deposed by President Davila, through the help of Zelaya, may be taking advantage of the situation in Nicaragua to seek revenge.

For some time it has been suspected among Central Americans that Davila was in sympathy with Zelaya in his efforts to crush the revolution under Estrada, and it is thought that Bonilla's threatened invasion of Honduras at this time would serve the double purpose of preventing any aid being given Zelaya, and at the same time render possible the overthrow of the Davila government.

It is believed, however, that Manuel Bonilla, former President of Honduras, who was deposed by President Davila, through the help of Zelaya, may be taking advantage of the situation in Nicaragua to seek revenge.

NEW ORLEANS, Dec. 7.—A weekly newspaper, published at Managua, Nicaragua, stated November 15, has just been received here containing a report of the execution of Canthon and Groce, the Americans.

The paper asserts the Americans were caught in the act of trying to blow up the steamer Diamante. It says that when the men were captured they had in their possession dynamite fuses and machines for causing the explosion, and that after a trial they confessed to having set the mine.

CHICAGO, Dec. 7.—[Exclusive Dispatch.] Old Winter blizzard hit Chicago today on an icy northwest wind and blizzard of snow, bringing death and widespread woe. The city shivered and stamped its feet. Nearly half a foot of snow fell. Overland trains were from two to thirteen hours late.

Some people were glad to hail old Winter. Others, dwelling where smoke that flew out from rickety chimneys was thin, or where there was no smoke at all, regretted his coming.

The storm started with marked energy off the Washington coast, but the east-coast of it pinched here. The northern part of the State received a considerable fall, varying from nearly an inch to .44 at San Francisco, and Fresno and San Jose saw points experienced about an inch.

All along the beach the fall was a trifle greater than in Los Angeles. Honolulu reported .75.

THE MUNICIPAL CONTEST.

## MAYOR ALEXANDER IS ONCE MORE "ALECKTED," LISSNER MACHINE TICKET CARRIES THE CITY.

### Hard, Close Fight, With Some Doubt as to Result—"Goo-Gos" Think They Have All Offices But One Councilman.

LATE returns made showed that the result of yesterday's municipal election in Los Angeles was very close. The official figures for 184 of the 200 precincts at 8 o'clock this morning gave for Mayor: Alexander, 10,880; Smith, 9,833; Alexander's plurality, 547. At the above-named hour all the votes had not been counted; the complete returns may change the complexion of things. The election of Alexander and most of the Lissner machine ticket seems assured, however. At 11 o'clock p. m., Lissner claimed 8000 majority for his ticket; at 1 a. m., but 1600. The Republican managers would not concede the defeat of Smith at 8 a. m. The City Clerk's figures, as far as the vote has been canvassed, indicate the defeat of Smith and of all the Republican candidates except Bernard Healey for the Council.

Cheers at the Goo-Goo Headquarters at Eleven-thirty o'Clock Last Night.

the secretary of the organization, had just posted a bulletin that seemed to assure victory when the flashlight photographer pressed the button.

dozen clerks computed the returns, were E. T. Earl, Lissner, T. B. Gibbon, Dr. John R. Haynes, Richmond Plant, B. W. Burnham, J. O. Keopfu, John D. Works, Martin Betkowski, John Topham and W. J. Washburn.

At first the returns received at Goo-Goo headquarters indicated a big Alexander victory but this aspect gradually changed as the returns from loyal Republican precincts came in. It was not until midnight that Lissner, chief computer, estimated that Alexander had been re-elected by 2000 majority and that all the ticket had been elected with him. Although the returns from 158 precincts seemed to show that E. E. Johnson, Republican candidate for Tax Collector, and Henry Lyon, Republican candidate for Council, were neck and neck with their opponents, Lissner declared the precincts yet to be heard from would show Taggart and Plant in the lead by safe majorities. The returns from the precincts of their apparent victory a "handshake."

At 2 o'clock this morning the election of the entire Good Government ticket, with one exception, was claimed by M. Lissner, president of that organization. Mayor Alexander's majority, on the incomplete returns then available, was placed by the Goo-Gos at 1500.

Chairman Casselman of the Republican City Central Committee declared at the same time that the official returns made at the City Clerk's office, and supplemented by reports from Republican precinct workers, indicated a close contest, and he would not at that hour concede the election of Alexander.

"The fight is mighty close," said Casselman.

Incomplete returns made to Good Government headquarters from 150 out of the 200 precincts showed that Alexander had won by about 1500 votes. Many of these returns were made by telephone, however, by Good Government Organization precinct committeemen, and they did not include many precincts with heavy votes in which Smith had the lead.

Returns from seventy-five precincts at 1:30 o'clock satisfied the Goo-Gos that the G.O.'s had elected J. D. Works, M. F. Betkowski, W. J. Washburn, George Williams, Miles Gregory, J. S. Andrews, R. M. Lusk and T. L. O'Brien to the Council. Their only apparent loser was Bernard Healey, the Republican candidate, Lyon leading him by about 400 votes.

The election of E. J. Leland, City Clerk; L. R. Hewitt, City Attorney; C. H. Hance, Treasurer; and Walter Mallard, Assessor, is assured. It was apparent, too, that C. M. Taggart, G.O. candidate for Treasurer, and John S. Myers, candidate for Auditor on the Lissner ticket, had won.

The present Board of Education is re-elected by a big majority; its members being H. W. Frank, Joseph Scott, F. W. Stoddard, Fielding J. Stilson, Melville Dozier, J. M. Guinn and Roger S. Page.

JOY OF THE GOO-GOOS.

The apparent success of the Goo-Goo party was the occasion for a grand ensemble of the houses of the Lissner machine at the headquarters in the Germine building during the evening. They are all there except Mayor Alexander, who remained at his home in telephonic communication with them.

It was also a matter of discussion at the Goo-Goo headquarters that their next step would be a beginning of an agitation for a new City Charter and that the door is to be opened to all the fresh and fat cranks in its making. It was the best of nearly

number of the "old timers" were quietly playing whist, unmindful of the uproar around them, content with an occasional glance at the bulletin board. These men have been so long in the habit of watching election returns and they could not keep away if they so desired.

In another corner of the hall the old men, who had slipped away from home to attend what may be their last election-count, were huddled together to keep out of the cold, and were talking of the politics of early days.

One little old man brought his lunch, which he calmly munches behind the protection of two overturned tables.

And all the while the great crowd in the hall stamped and cheered itself hoarse with the reading of every favorable report.

No one was willing to concede defeat, no one cared to think of defeat. They had set their hearts upon a victory and they didn't want any doubt to enter into their evening of enthusiasm.

At times the crowd was so great that the stairway leading to the hall was packed and men were standing in the street below receiving the bulletin passed down to them by the more fortunate ones above.

Cloudy skies and a penetrating mist greeted the early-rising election officers yesterday as they hurried to the polls to open them promptly at the hour of 8 o'clock. The scene overhead was doubtful and many predicted that before noon the sun would dispel the darkness and give a clear half day about filling vacancies on the election boards, but these were soon settled, except in precinct 17, where a contention was kept up all day by the Silk Socks. Reports to the City Clerk's office during the day did not reveal any

Chairman Casselman with a large corps of assistants handled the reports from the lieutenants at the polling places. At one end of the hall a partition and railing had been put in. Behind this, ten young women received messages over the telephones. These reports were handed to the tally-clerks, checked off, and then made into bulletins and hung in the outer hall.

From the beginning to the end the enthusiasm of the crowd remained the same, the cheers being heard for blocks as favorable Smith reports came in over the wire.

At times an announcer mounted a chair and read out returns while the crowd cheered its appreciation, and hats, canes and umbrellas were tossed in the air.

The crowd was typical of old-day

GETS BULLET THROUGH HEART; REFUSED TO FEED DRUNKEN MAN.

WILLIAM MOORE, owner of a small lunch wagon at Ninth and Main streets, was murdered this morning at about 9 o'clock by an unknown man to whom he had refused a meal.

Moore was serving two or three customers when a stocky, short man walked up and asked to be given something to eat.

Moore replied that he had nothing to give away. The stranger replied with a foul epithet, and Moore, angered by the insult, ran to the end of the wagon, apparently with the purpose of resending the affront.

SHOT DEAD.

The lunch stand keeper had hardly cleared the canvas flap at the end of his wagon before there was a flash and a loud report. He fell, bleeding from a bullet hole through his left breast.

The murderer escaped by running across the street and into the darkness of a marble yard, the rear of which afforded easy access to either Broadway or Eleventh street.

ELECTION.

(Continued From First Page.)

discrepancies in the supplies furnished and the official tally varying over any delays in the voting.

The voting began lightly, particularly in the south and west portions, but by 9 o'clock it had assumed proportions that justified belief that it would be large. At noon both headquarters estimated that it was at least 15 percent, in excess of the vote at the primary election, November 10, and this indicated a total vote of about 55,000.

After the noon vote there was a lull and then about 4 o'clock a heavy vote set in which continued until the close of the polls at 6 o'clock.

Workers for both parties were indefatigable. The rain was practically no interference with their work, though it did impede it a little with some voters. Autos were rushed here and there, and every one who looked out of a window soon learned that an election was actively in progress. It was a day of persistent effort, more so with the Republicans than with the others, for they lost a time in sending reports for the card index but gave every moment to furthering the success of the party ticket.

Betting during the day was dragging with plenty of Alexander money in sight at odds of 2 to 1. Those recording bets said it was the dullest betting proposition in many years and charged it to the uncertainty of the non-partisan ballot and the influence of the weather.

About noon the Good Government headquarters sent out a card in the hope of whipping its workers into new activity. It was a statement from Lissner that 400 men had been imported from near-by towns to repeat in the seventh and eighth wards and perhaps elsewhere. This was the only thing that broke the monotony of the steady voting of the day.

Late in the day a loud cry went up from Lissner machine headquarters that fraud was practiced openly by the opposition. If this were the case, the alert watchers for the Goo Goo failed to make a case in any instance, for there were no arrests.

ROW IN PRECINCT 17.

Both sides attempted to make capital out of the situation in precinct 17, the polling place of which was near Temple street and Edgewood road. At the opening of the polls there was a dispute between the election officers and a crowd of Alexander supporters, who had appeared early to see that everything was conducted as they wanted it to be.

James A. Craig, one of the election officers, was unable to appear for duty, but in his stead he sent his son, Roy Craig, who is a voter registered in that precinct, and qualified to serve on the election board.

John W. Powell, one of the judges, swore in the other officers, including young Craig, and the polls were declared open.

The Silk Stock watchers objected to

has been denied by Prescott, who asserts that Skinner at no time was accorded any more privileges than any other contestant in the office.

Lake Freighter Reaches Port a Veritable Iceberg; Buffeted by Heavy Southeaster.

[ASSOCIATED PRESS DAY REPORT.]

DULUTH (Minn.) Dec. 7.—The pack-et freighter Muncy of the Anchor line, which arrived here last night, had a thrilling trip from Houghton to Duluth.

The Muncy, as she lies at the Omaha dock, is a veritable iceberg. Second Mate J. J. Smith said:

"We left Houghton about 8 o'clock Sunday evening. About 10 o'clock a heavy southeaster, with much snow, struck us. It was the worst night I have ever spent on the lake. The waves dashed over the decks and the spray dashed thirty to forty feet up the spars. The water froze as fast as it struck. A big wave washed away the tank fastened to the forward deck and tore away the pilothouse bridge. About midnight the water entered the cabin windows. At times we believed the ship was sinking."

PULLMAN COMPANY NEW RULES CUT BOTH WAYS.

Employees May Not Carry Grips for Passengers and Bruah Them Off Only at End of Sleepers-Colored Gentlemen Will Be Hard Put to It to Earn Customary Tips.

[BY DIRECT WIRE TO THE TIMES.]

CHICAGO, Dec. 7.—[Exclusive Dispatch.] "Sorry, boss, but you'll have to carry your grip out yourself, sah. That's the new rule, sah."

This may be the greeting of the Pullman porter from now on. The Pullman Company, after years of criticism, is said to have jerked up its colored employees with some new rules. A number of old ones also will be enforced henceforth.

In effect, the changes are:

No grip that cannot go under a seat, or in any wise in the way, will be allowed on Pullmans. Such baggage must be checked in the baggage car.

Porters cannot carry grips or bags to the vestibule of a car for passengers who are about to get off. They are allowed to take only as much luggage as they can carry in either hand.

An old rule, made obsolete by the guardian of the green plush cars, which in future will be insisted upon is, that porters can brush off passengers only at the ends of the cars, not in sections where there are other passengers.

Orders to this effect, it was reported by employees of the company, would be sent to all the porters immediately.

As a natural result, passengers will benefit and suffer in the same breath, while the colored gentlemen with the inverted palms—"to see if it's going to rain, sah"—will experience considerable difficulty in accumulating the "rain drops."

Considerable maneuvering to secure the tips, by which it has been said that the porter only is able to live, is anticipated. How George can manage to induce his passengers to go to the rear of the car to be brushed off, or how he can perform sufficient "additional service" in caring for the million to needs of the Pullman passengers when he cannot carry more than two or three bags, remains to be seen.

One large and commodious howl from these attentive gentlemen is expected all the way to Dixie and east and westward, from coast to coast, as the new rules, it is understood, cover the country wherever Pullmans run.

Hitch in Wage Negotiations.

Gift selected how may be reserved and delivered any time before Christmas.

# Let Her Gift Be a Useful Desk

There is no one piece of home furniture which enters more intimately into a woman's private life—than her writing desk. It is one of the few pieces of furniture in the home which is exclusively "hers," and is, therefore, peculiarly fitting as her Christmas gift.

And coming from the "California" makes a writing desk all the more giftable—and all the more acceptable—for it is a recognized fact that only furniture of distinctive merit and superior quality ever finds place in the home.

We show over 100 different styles in women's writing desks—which represent the best of America's leading cabinet makers, and embrace every modern correspondence convenience. All ular woods and finishes are represented, birdseye maple, golden oak, fumed oak, Tuna mahogany and Circassian walnut. The prices range from \$7.50 for a golden oak desk up to as high as \$40.00 for the finest desk in Cuban mahogany. And desk chairs are shown to match all the desks—at \$4.00.

And—if she already has a writing desk—you will find many other unusual and splendid suggestions for her gift—here—at any price you may desire to pay.

## SUGGESTIONS YOU MAY FIND HELPFUL

Mahogany Trays, \$4.00 to \$40.00.	Dressing Stools, \$4.00 to \$14.00.
Brass Jardiniere, \$4.00 to \$10.00.	Mahogany Costumers, \$4.50 to \$12.00.
Brass Fern Dishes, \$3.00 to \$12.00.	Mahogany Desk Clocks, \$2.50 and \$4.00.

We invite you to come and visit the California before you solve your gift problems—you will find many suggestions which will strongly appeal to you—and you will be welcome whether you buy or not. But come—shopping is most satisfactory, to both seller and buyer.

CHINESE INSPECTOR FIRED.

WASHINGTON, Dec. 7.—Secretary Nagel today directed the dismissal from office of George E. Baldwin, a Chinese immigration inspector at Baltimore. Baldwin has been under suspension for a short time for alleged irregularities, into which a thorough investigation was made by Commissioner General Keefe of the immigration service and by Chief Clerk Weed of the Department of Commerce and Labor. It was said at the department that Secretary Nagel had directed the dismissal of Baldwin "for the good of the service" and that this action "was not taken on the charges made."

MISS Emily Huntington.

WINDHAM (Ct.) Dec. 7.—Miss Emily Huntington, author of many books on charitable subjects, and a charitable worker of national repute, is dead at her home here. She was 88 years old. She was for twenty years at the head of the Wilson Industrial School for Girls in New York City, the first institution of its kind in the United States, and was the originator of the kitchen garden movement which spread rapidly throughout the country in the early eighties.

The net earnings of Section Six are \$100,000.00. The payment of dividends and the interest on the bonds will be declared in January. The income from the Merrill Crude lease alone is \$100,000.00 and the profits to be derived from the Rancho and Devil's Den holdings coming from the treasury will allow dividends to be paid.

Mr. McCrossan is defended by Paul

Yesterday, while a most wonderfully

LINE OUT FOR STURGEON.  
Mr. Sturgeon hurried out into the

fendant to follow him.

McCrossan cast a sad, lingering look  
of doubt at the judge; then he looked  
with sorrow and indecision at Mr.  
Sturgeon. But finally Mr. Sturgeon's  
compelling finger triumphed, and Mr.  
McCrossan slid out of the courtroom  
like a pale shadow.

Presently, Judge Willis, who had  
been sitting enthralled by the golden

of alarm; "the defendant seems to be

**Wedded in Grand Rapids.**

One of the prettiest weddings of the winter season in Grand Rapids, Mich., was solemnized there last night at the residence of Louis Winkels, No. 124 Veto street, when Grace Olive Lemmon of that city and Harry Hadden Whiteley of Los Angeles were united. Rev. R. H. Edgcomb, pastor of the Third Presbyterian Church, officiated. The house was beautifully decorated throughout, the parlor being festooned with northern pine moss draped from a large white wedding bell, while the improvised altar stood before a large bank of palms. On each side was a white column wound with English ivy. The bridal procession entered in the following order: to the music of Mendelssohn's "Wedding March," Fred Winkels, head usher, and minister; Bratton Lemmon, ring bearer; Frank Lemmon, best man, and the groom; Misses Charlotte Smith and Nellie McArthur, bridesmaids; Gladys Marvin and Irma Winkels, flower girls; the bride and her uncle, Louis Winkels.

The ring bearer, who was a small boy, held a large calla, and rose leaves were sprinkled in the path of the procession by the small flower girls. The aisle was formed by the girl friends of the bride by means of moss cords and was composed of Miss Nellie McArthur, Miss Victoria, Miss Marie Leone Palmer, Miss Neta Edgcomb, Miss Helen Newton, Mrs. Carl Strand, Mrs. Fred Neslie and Mrs. Leroy Dunaway.

Mrs. Claude J. Fry of Springfield, O., was mistress of ceremonies, and Mrs. Ella Vanorman had charge of the dining-room, assisted by Miss Corda Hayward, Miss Amanda Whitth, Miss Bertha Smith, Miss Mildred Feldner, Miss Ida Dykeman, Mrs. Harry Mayer had charge of the punch room, which was decorated in pink and green. The dining-room was decorated with smilax and pepper berries. The music was furnished by Miss Della Cheyne, accompanied by Miss Flossie McArthur on the violin.

The bride's costume was of white net over white tulle, with silk pearl trimmings. Orange blossoms from California were worn in her hair, and a large bunch of white chrysanthemums were carried. The costume of the bridesmaid, Miss Nellie McArthur, was composed of blue silk, batiste, while Miss Charlotte Smith wore a dress of pink batiste.

The newly married couple will start for the West immediately and will stop for several days in Chicago. They will be at home January 10 at No. 3151 Fifth avenue, Los Angeles.

**DISGRACED PARSON DEAD.**

Minister With Dark California Record Dead of Heart Disease in San Antonio, Texas.

[BY DIRECT WIRE TO THE TIMES.] BOULDER (Colo.) Dec. 7.—[Exclusive Dispatch.]—Rev. Payson Young, who got into trouble while he was acting as pastor of a Boulder church and who, after leaving here, became involved in a scandal on the Pacific Coast, is dead from heart disease at San Antonio, Tex., according to a letter received in this city. The letter stated that the disgraced pastor died November 16, from heart trouble, induced, it is believed, by the notoriety he achieved in California.

Young was accused of being responsible for the disappearance of pretty Edna Clark, an art student of Alameda, from San Francisco in November, 1900. Weeks later Miss Clark was discovered in Chicago. She declined to say why she left California.

Young was known also as Patrick Lyons, for soon after his name appeared in connection with that of Edna Clark, a woman calling herself Mrs. Lyons, arrived in San Francisco from the East, with the statement that Young had deserted her.

BRUSSELS, Dec. 7.—It is reported that the paralysis in the right arm of King Leopold is extending, and that he can write only with difficulty. He spends much of his time in an easy chair.

In response to inquiries today it was officially stated the king was suffering from rheumatism, but was improving and that his general condition was satisfactory.

**Orrine Does Cure Drunkenness**

This is a positive fact known to tens of thousands of wives and mothers of this land. They know Orrine as a reliable remedy for the cure of drunkenness, because it has saved their loved ones to lives of sobriety and usefulness. Every one of these women bought Orrine with full confidence, and every one of them cured or their money would be refunded to them if it failed. This guarantee is in each box. No other remedy for the cure of drunkenness is sold with this liberal guarantee, but Orrine has been so uniformly successful that the makers want the buyers to know that they have full protection if it should fail in any instance. We never publish letters of patients, but recently this letter came to us from Dr. No. 10, 10th St., Philadelphia, Pa. Read it and you will really appreciate why Orrine is so well thought of.

"I had a remarkable case of inebriety under my personal observation. The patient drank heavily for fifteen years and reached a degraded condition, which caused the breaking up of his family and separation from his wife. Every hope was given up of ever saving the man from this drunk condition. It was my pleasure to recommend Orrine, your liquor habit cure, and the treatment was taken faithfully. This was two years ago and the patient is now in a healthy condition, has ceased drinking, and is the use of stimulants. I have sold Orrine for a number of years and have always found it to be a perfectly satisfactory, reliable and an excellent good treatment for this disease."

Orrine is prepared in two forms. No. 1, a powder, absolutely tasteless and odorless, given secretly in food or drink. Orrine No. 2, in pill form, is for those who wish to cure themselves. Orrine costs only a box and the guarantee is in each box. Write for Free Orrine Booklet (valued in mail order envelopes) to Orrine Co., 619 Orrine Building, Washington, D. C. Orrine is for sale in this city by The Orrine Drug Co., 220 S. Spring Street and Broadway, 475 S. Broadway.

Laird-Schober & Company's Evening Slippers are strikingly perfect specimens of the shoe-making art—

"All works of taste must bear a price in proportion to the skill, taste, time, expense and risk attending their invention and manufacture. Those things called dear are, when justly estimated, the cheapest; they are attended with much less profit to the Artist than those which everybody calls cheap."

"Beautiful forms and compositions are not made by chance, nor can they ever, in any material, be made at small expense. A composition for cheapness and not for excellence of workmanship is the most frequent and certain cause of the rapid decay and entire destruction of arts and manufactures."—Ruskin.

- Part 5—Oil, Mining; Our Many Industries.
- Part 6—Art, Science, Education, Home Life.

Particular attention will be paid to the openings for new settlers,  
to the lands inviting the rancher, the cattle-grower, the fruit-raiser  
and the home-builder, in such wonderfully prolific sections as the  
Imperial Valley and the Valley of the San Joaquin.

Successful raisers of oranges, successful raisers of alfalfa, suc-  
cessful growers of walnuts will tell in their own language just how  
it is done.

Have fortunes been made in Los Angeles and the  
Southwest? Well, well! Have so many been made in  
any other territory of like population?

HOW? HOW? HOW? HOW? HOW? HOW? HOW?

Read the happy New Year's Day account of it all in the Giant  
"Times" Annual. Spread the story far and wide.

You want to tell the folks back home all about  
the beauties, wonders and possibilities of this Land  
of the Setting Sun? You would have to write a  
book to do it.

**TAKING A LITTLE DIAPEPSIN.**

Heartburn, Stomach Gas, Dyspepsia  
and Headaches Vanish Before You  
Realize It—Thousands of Readers  
of The Times Will Find a Perma-  
nent Cure for Stomach Trouble at  
a Very Nominal Cost.

Nothing will remain undigested or  
sour on your stomach if you take  
a little Diapepsin occasionally. This  
powerful digestive and antacid, though  
as harmless and pleasant as candy,  
will digest and prepare for assimila-  
tion into the blood all the food you  
can eat.

Eat what your stomach craves, with-  
out the slightest fear of indigestion  
or that you will be bothered with  
rises, belching, gas on stomach,  
Heartburn, Headaches from Stomach,  
Nausea, Bad Breath, Water Brash or  
a feeling like you had swallowed a  
lump of lead, or other disagreeable  
miseries. Should you be suffering now  
from any stomach disorder you can  
get relief within five minutes.

If you get from your pharma-  
cist a 50c case of Pape's Diapepsin  
you could always go to the table with  
a hearty appetite, and your meals  
would taste good, because you would  
know there would be no indigestion  
or Sleepless nights or Headache or  
Stomach misery all the next day;  
and, besides, you would not need lax-  
atives or liver pills to keep your stom-  
ach and bowels clean and fresh.

Pape's Diapepsin can be obtained  
from your druggist, and contains more  
than sufficient to thoroughly cure the  
worst case of Indigestion or Dyspepsia.  
There is nothing better for gas on the  
stomach or sour odors from the stom-  
ach, or to cure a stomach headache.  
You couldn't keep a handkerchief or  
useful article in the house.

**CIRCUMSTANTIAL SMELL.**  
But the Beer Was an Accident and the  
Bottle a Misfortune to  
Citizen.

G. C. Thaxter, 57 years old, secretary  
of the Redlands Board of Trade, is not  
a believer in circumstantial evidence.  
When he returned to his home after a  
visit to the city yesterday, all of the  
circumstances pointed to the fact that  
he had had a joyous time. But the  
police surgeons will bear witness that  
his decorum was all that could be de-  
sired.

When he arrived at his home last  
night, his right hand was swathed in  
bandages and there was a suspicious  
smell of beer on his clothes. But these  
incriminating evidences were not the  
offspring of anything within the con-  
trol of the secretary.

Thaxter was walking along Second  
street between Broadway and Hill  
streets when a woman on the second  
floor of a rooming-house opened a  
window. In doing so she broke a bot-  
tle of beer. The liquid fell on him in  
a shower and the broken glass rained  
down on him.

A sharp piece of the bottle struck  
his right little finger and several the  
finger. He went to the Receiving Hos-  
pital for treatment. The surgeons  
applied together the tendon. They told  
him he would have to wear the finger  
in a splint for several days.

"This shows how little control mor-  
tals have over fate," Thaxter re-  
marked, after his injury had been at-  
tended, "if I had gone up another  
street, or even walked on the  
other side of the street, or if I had  
been a second earlier or later, this  
would not have happened."

# A Great Pre-Christmas Sale of All Ostrich Feathers and Paradise Aigrettes

The big importation of South African Ostrich feathers which "The Marvel" announced some few weeks ago, has arrived.

This enormous consignment coming when the season is practically half spent—makes quick and drastic action imperative if we are to get our money out of these feathers this season.

Accordingly, this morning, our entire stock of Ostrich Feathers and Paradise Aigrettes goes on sale at prices which discount any Ostrich or Paradise values ever quoted or offered in this city. It is an opportunity to add another plume—or Paradise to your hat—at a saving that may not come again in a good while. And it is a strong inducement to

Throughout the whole store every price will be reduced. ## SEEK GUILTY WAGE EARNERS.

UNION AGITATORS ARE AFTER SUPPOSED TRAITORS.

Trouble Makers Go Gunning for Plasterers Reported to Be Earning More Per Day Than the Law of the Totemites Allows—Great Unanimity in Pleading Innocence.

SAN DIEGO, Dec. 7.—Somewhere in San Diego several union plasterers are earning more money than the law of unionism allows. This fact leaking out has aroused the ire of labor agitators who have inaugurated a still hunt to run down the guilty workers.

In an industrial interview a local paper, quoting a leading contractor, made the statement that some plasterers are receiving as high as \$7 per day for their services. As union rules say that a union man who works the trowel shall be paid but \$5.50 per day leaders of the trade suspected traitors in the camp of unionism and immediately it is said, called together their members for the purpose of snuffing out the guilty ones. Names were counted and each and every one pleaded not guilty to the "awful crime" of working for such fancy figures. A committee, consisting of the president of the plasterers' union and two other members, was appointed to learn the names of those who dare disobey union rules. So far, it is said, they have learned that five expert plasterers brought here from Los Angeles for work on the Grant Hotel are paid \$6 a day, which they say is the nearest they have come to the \$7 report.

Construction of the San Diego and Arizona Railroad through Mexico costs big money. The road is about to commence a four mile cut through solid rock southeast of Tia Juana at a cost of \$100,000 a mile. The purchasing department has placed an order for a second locomotive and another train of twenty all steel flat cars. New material just ordered consists of 1000 tons of steel for an all steel viaduct to be erected near Tia Juana; 100,000 feet of bridge timbers; 10,000 feet of red wood timbers for tunnel construction and an additional \$50,000 ties.
